

Murari Shrivastava

Senior Software Engineer – Python Backend & Data Systems

Email: shrivastava.murari@gmail.com | **Phone:** +91-9039948775

Profile Summary

Senior Software Engineer with 9+ years of experience building scalable backend systems and applications. Strong expertise in Python (FastAPI), database optimization, and secure system design for enterprise and government platforms. Developed and optimized SQL queries with exposure to Oracle Database and PL/SQL concepts for backend data handling

Technical Expertise

- **Languages:** Python, PHP, JavaScript.
- **Backend:** Django, REST APIs
- **Python Ecosystem:** Fast API, NumPy, Pandas, Matplotlib
- **Databases:** MySQL, PostgreSQL, Oracle Database (SQL, PL/SQL fundamentals)
- **System Design:** Scalability, Caching, API Design, Secure Architectures
- **Cloud/DevOps:** AWS, GitHub Actions, CI/CD
- **Tools:** Git, WordPress (custom themes/plugins)

Professional Experience

Senior Software Engineer

Aid4sure Corporate services Pvt Ltd

Apr 2025 – Present

- Led backend development using Python/Django for scalable architecture.
- integrated AI tools (Copilot, ChatGPT) for efficient coding.
- customized WordPress frontends, managed database solutions.
- Implemented CI/CD pipelines using GitHub Actions and AWS.
- Developed custom web applications for clients in e-commerce, healthcare, and education sectors.
- Built a scalable e-commerce platform using WordPress, integrating Stripe for payments.
- Created a Django-based content management system for a company, enabling seamless content updates and reducing administrative workload.
- Collaborated with clients to gather requirements, provide technical consultation, and deliver projects within deadlines and budgets.

Senior Software Engineer & DBA

AARDEE Solution Pvt Ltd, New Delhi (Client: Joint Controller of Defence Accounts)

Apr 2022 – Mar 2025

- Architected and deployed secure full-stack applications for defence financial systems handling sensitive pension and audit data.
- Designed optimized database schemas and queries, improving reporting performance and reliability.
- Led time-critical upgrades and migrations with zero data loss and uninterrupted availability.
- Established development and documentation standards to ensure scalability, maintainability, and security compliance.

Software Engineer & DBA

Akal Infosystem Pvt Ltd, New Delhi (Client: Indian Air-Force)

Nov 2019 – Mar 2022

- Managed and optimized Microsoft SQL Server databases for large, sensitive defence datasets.
- Developed backend components for secure, high-reliability applications used by Air Force personnel.
- Improved query performance and system stability through indexing and schema optimization.

Software Engineer (Backend – PHP)

Spread Digital, New Delhi

Feb 2017 – Aug 2019

- Built scalable PHP/MySQL backend systems and optimized databases for growing traffic.
- Collaborated with frontend and QA teams to deliver reliable, production-ready software.

Web Developer

CodeLogic Consultancy Services India Pvt Ltd, Gwalior

Jun 2015 – Jan 2017

- Built responsive web applications using PHP and MySQL, focusing on backend stability and performance.
- Implemented and tested server-side features to support business workflows.

Key Projects

GitHub Developer Analyzer - Python, REST APIs, GitHub API, MySQL, Oracle (SQL fundamentals), Pandas

- Built a data-driven platform to analyze developer activity and repository insights using the GitHub API.
- Designed backend services to fetch, process, and store repository metadata (commits, stars, forks, issues)
- Optimized API calls using caching strategies to handle rate limits efficiently.
- Utilized relational database systems (MySQL/Oracle concepts) for structured data storage and querying.

ListedVegan – Python, Django, MySQL

- Built a location-based platform using REST APIs to discover nearby vegan food options with scalable backend design.

Pension Sanction System (Defence) – PHP, MySQL

- Developed a secure system for auditing pensions and generating e-PPOs for retired Indian Air Force personnel.

Education

B.E. – Computer Science & Engineering

Rajiv Gandhi Prodyogiki Vishwavidyalaya (RGPV), Bhopal

CERTIFICATION

Data Science & Analytics – HP LIFE (HP Foundation)

Completed training in data science lifecycle, analytics methodologies, and data-driven decision systems.

Declaration

I hereby confirm that all information provided is accurate, up-to-date, and subject to verification.
